

Dick in Peterborough by-election 2019

Dick Rodgers Common Good party

Would you be so kind as to read this leaflet carefully and consider funding me and helping me to stand in Chesham and Amersham by-election.

Election Communication Chesham and Amersham Constituency
Promoted by Richard Rodgers for the Common Good party 63 Meadow Brook Rd Birmingham B31 1ND

I am keen to stand in this election to say:

Our country needs a UNIFYING NATIONAL PURPOSE, and that that purpose should be to make the world a better place and to make our own nation a happy, kind, productive society that models the values we want to promote throughout the world.

There is a lot of stuff that needs doing in the world and I would like to see our nation apply itself seriously, professionally and energetically to the aim or being – collectively - a good citizen in the world. I want this to be our raison d’être as a nation – the job that we are engaged on together, a bit like the World War 2 generation pulled together, a vision that draws us together about a common purpose, an honourable goal of which everyone can honestly say, “Yes I want to be part of that! I’m up for doing my bit by doing a job that contributes to the attainment of such a goal. I’m proud to be part of it. It’s why I get up in the morning.” It would do our nation a power of good.

Goals for global Britain

A good place to start is with the UN Sustainable Development Goals which took over from the Millennium Development Goals, such as making sure everyone in the world has something to eat, that children survive childhood and that mothers do too. And (speaking as a Fellow of the Royal College of Surgeons) that people have access to affordable surgery when they need it. There's a huge deficit there.

These are big jobs. They need political input and although it's good to have pledged to give 0.7% of our GDP in AID, we have stopped doing so. Even if we did, there is a whole lot more that needs to happen to bring this benefit home to people in troubled parts of eg Africa. NOTE if we don't do it the Chinese will do it – correction – ARE doing it and they have a questionable manner of governing. We should show that we have a better vision of how we can get on with each other on this small planet.

Then there's getting on with Russia and China to the mutual benefit of all. And there is Islamism to put at peace, in a profoundly wholesome and just

way to the benefit of all – even of the Islamists who probably, underneath, want to bring up their children happily.

etc., etc., and saving the planet.

Domestic Policies

Turn back the tide of privatisation especially of the NHS.

Elderly care under the NHS.

Elected government of the regions of England with enough power to oblige central government to heed the Regions and persuade the Scots to stay with us in a renewed UK.

Money created as the property of the nation not (ruinously) of the commercial banks as at present.

Re-join EU ASAP. End student fees. Municipal cheap transport.

If you think you might help me please get in touch. I'd need your address. I'm looking for £500 for the deposit, which I will lose, and £600 for a leaflet and extras totalling £1,300. And door knockers and a local address etc!
