

# # The EU is amazing

The EU has brought peace and freedom to Europe after centuries of war and tyranny.

These are our friends and colleagues.

Let's stay in  
the EU after all.

The EU made Europe into a place of cooperation with our continental friends and colleagues, nurturing friendship, production, research and a better world.

Britain needs changes but leaving the EU isn't the answer.

If you want Britain to stay in the EU, please speak up now.
